Subject: Wilcox Questions

Katrina,

A few questions regarding Wilcox.

- 1. Air samples that are scheduled to be collected the week of September 12. Could they be collected the week of September 19?
- 2. On the COC target list for air. You have 3 Chloropropene. Is that supposed to be 2-Chlorpropene?
- 3. For the Hexavalent Chromium. You have a project screening level listed of 0.035 ug/L. Our current RL is 0.050 ug/L. Is this ok?
- 4. Will the VOA water samples be chemically preserved?
